## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 343 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 343 day(s).

## Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$685.00
  - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
  - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$330.00
  - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

***Allowance of Application # 09/788,104***

1. The following communication is in response to applicant's IDS received on 8-January-2004. This application is a CON of 08/912,427, filed on 18-August-1997, now U.S. Patent No. 6,219,628.

***Reasons for Allowance***

2. The following is an Examiner's Statement of Reasons for the indication of allowable subject matter. The instant application is directed to a nonobvious improvement over the invention described in U.S. Patent No. 6,226,776 to Panchul et al.. The improvement comprises a system and method for configuring a device to perform a measurement function, wherein the device includes a programmable hardware element, wherein a graphical program is created, including a block diagram, which implements a measurement function, wherein a hardware description based on the block diagram is generated for describing a hardware implementation of the block diagram, wherein the programmable hardware element in the device is configured with the hardware description to produce a configured hardware element which implements a hardware implementation of the block diagram, wherein the device acquires a signal from an external source, wherein the configured hardware element in the device executes a measurement function on the signal, the measurement signal then being displayed. This patentable distinction is included in each of the independent claims 1, 35, 36, 65, 72, 100 and 126. The art of record, either

**In re Application of: Kodosky et al.**

individually or in combination, fails to teach, suggest, or render obvious the useful, concrete and tangible configured hardware element which implements a hardware implementation of the block diagram, wherein the configured hardware element in the device executes a measurement function on an acquired signal, having the corresponding structure which is disclosed in the specification and equivalents thereof at least at <page 11, line 1 through page 51, line 15, and Figures 1-19>. In view of the foregoing, the claims of the present application are found to be patentable over the prior art.

***Response Guidelines***
